## Individual TradeCoach Workshops

**On the fence?** If my complimentary TradeLabs (every Tuesday/Thursday) are not enough for you, I recommend you subscribe for an individual TradeCoach workshop. Come trade with me! I will pack in as much as I can into a one hour workshop.

**Experienced Trader?** Perhaps, you only need training in one specific area: trade qualifying, scaling in/out, risk/reward ratio, five rules of engagement, the Quant Report, and many more.

**Graduate?** Just like a professional athlete keeps him or herself conditioned, why shouldn't you? I suggest scheduling one or two workshops per month or until you have reached your monthly goal.
